Thanks, Endre. Regarding possible dates for the site visit, would December 10 or 11 work for you and your client? Also, if you plan to conduct sampling during the site visit, please provide me with additional details about the type of sampling that you plan to conduct. Thank you.

Lori

Lori:

I think additional time is acceptable, and ask that your client submit the response no later than 11/24. That date is almost three months after the date EPA sent the 308 Information Request.

Regarding a site visit, please send dates/times that will work for the weeks of: December 1 – 5; December 8 – 12; and December 15 – 19.

Thank you,

Endre

Endre,

We have been working diligently on our client's response to EPA's Information Request, however, due to the breadth of the questions and information sought, we will require an additional fourteen (14) days within which to provide our response to you. Regarding providing access to the farm, my client is willing to find a mutually acceptable date for you and your client to visit the farm after you and your client have received and reviewed our response to the Information Request. Thank you.

Hi Lori:

Thanks for your email. The FOIA response will be sent out this week, possibly as early as tomorrow. Regarding the extension request, please submit the response to the Information Request by November 10, 2014 (+10 days from the extended deadline of October 31, 2014).

Another item we discussed during our call on October 9 was scheduling a site visit. Any progress on that front? In addition to the Information Request response, we would like to have a confirmed date for a site visit by November 10. I think the best way to do that is for you send me some potential dates that work on your end, and I can coordinate with the relevant folks on my end to confirm a date.

Let me know if you have any questions or would like to discuss this on phone call.

Thanks,

Endre

Hello Endre,

By way of follow up to our conference call of October 9, 2014, I wanted to let you know that we have still not received any documents in response to our FOIA request dated September 22, 2014, as clarified at EPA's request on September 24, 2014. As we talked about during our call on October 9th, the point of my FOIA request was to be able to have responsive documents ahead of responding to the

EPA's Section 308 Request for Information. I recall that you expected to provide documents to us by last week. Because did not receive any FOIA documents last week and still have not received any documents, I am requesting an additional extension of time to respond to EPA's Section 308 Request of ten (10) days from the date we receive documents that are responsive to our FOIA request. Thank you for your consideration of this request.

Lori
